**Attachments:** Weighing epidemiologic evidence (Jan 17 2013).docx; Lymphohematopoietic Cancers and Formaldehyde\_for NAS\_Jan17.docx

Martin and Vince,

Here is the revised epi WOE section for the handbook with the changes from the mark-up meeting. The main changes were adding citation for the most recent ISAs and matching the epi descriptor language more closely to the ISA descriptor language with inclusion of citation there as well.

Weighing  
epidemiologic evi...

Working with Barbara and NCEA-Washington management, we offer the hazard ID section for three LHPs (Hodgkin lymphoma, multiple myeloma, and non-Hodgkin lymphoma). Please note that this transmittal does not constitute clearance by NCEA-Washington. It is my understanding that all material will be marked draft/deliberative, do not cite of quote.

Lymphohematop...  
Cancers and For...

Please include NCEA-Washington management in the forthcoming clearance review and include me and Barbara on any issues that arise.

Thanks,  
Tom
